

SPORTY

Game Day App Quick Guide

Initial Team & Access Set Up for Club Administrators

1. People using the app need to register as an Admin/Volunteer if they are not already registered as a Coach/Player.
2. Open Teambuilder (Junior/Senior Rugby Registrations 2020)
3. Ensure all players in the squad are added to the team by dragging and dropping
4. People trialling the app need to be added to their team by dragging and dropping from the coach tab or admin tab.
5. Click the team icon to open the team
6. Click the green + icon next to the users name trialling the app
7. Give this person Admin and/or Scorer access. Admins can select the team and scorers can score the game. Users may be one or both.
8. Choose Yes to send an access email. This will send the person using the app an email with their login details. They can now set their password, then log into the app by selecting the "Officials" icon and entering their username and password. If the person is an existing Sporty user, they can simply enter their existing username and password into the app.
9. The person using the app will now see any published fixtures for their team and have the ability to choose their game day team and/or score the game depending on the permissions they have been given.
